

## MESOTHELIOMA

This is Jacob Bryant and I came across the helpful information you shared for veterans on your page at <https://vvaavic.org.au/references/veterans-health> and was wondering if you were open to adding new resources to your website.

You may be aware of asbestos, a mineral once deemed to be the "miracle mineral", due to its fire-resistant properties. The military relied heavily on asbestos for decades, using it in many of their products like in ships, aircraft, and barracks. Because of this, veterans are more likely than others to be affected by mesothelioma cancer, making up almost 1/3 of all cases. See our guide for more information below:

Mesothelioma - [lanierlawfirm.com/mesothelioma/](http://lanierlawfirm.com/mesothelioma/)

Also, here is our guide on asbestos exposure in the Navy - [lanierlawfirm.com/mesothelioma/veterans/military-asbestos-exposure/navy/](http://lanierlawfirm.com/mesothelioma/veterans/military-asbestos-exposure/navy/)

A ton of work was put into it. If you think this guide could be helpful for your veterans, would you consider sharing a link to this somewhere on your page? I'm sure you get a lot of requests like this, but I think it may be worth a look.
